

## Zielonogórska Lecznica Weterynaryjna in the LuxVet Group

Zielonogórska Lecznica Weterynaryjna will be developing with the support of the LuxVet Group starting May 2023. The facility is located in Zielona Góra at Olbrychta 1A. It was established in 1989 by veterinarian Barbara Hanusz. Currently, the clinic provides veterinary care 7 days a week.

The team consists of 7 veterinarians, 5 veterinary technicians and 3 receptionists. Patients receive specialized care in surgery, neurology, internal medicine, oncology, cardiology, orthopedics, ophthalmology and dentistry. The facility has 2 consultation rooms, an imaging diagnostics room, a pre-op room, a surgical block with 2 operating rooms and a laboratory equipped with a biochemical and morphological blood analyzer. The clinic also offers ultrasound, ECG and endoscopic testing.

The facility has two fully-equipped hospitals that are monitored 24/7 – one for animals with infectious diseases, and the other one for patients requiring constant medical care, recovering from surgery, and animals whose owners cannot come to appointments every day. The hospital rooms offer a total of 18 spots for small and large patients, as well as modern incubators for newborn animals.

*“30 years of experience and our state-of-the-art equipment allow us to provide a full range of veterinary services. As a result, we are able to provide the highest standard of care for the animals entrusted to us. Each patient receives individual and attentive care from our team. By joining our forces with the LuxVet Group, we will be able to further develop our professional goals,”* said Barbara Hanusz, founder and owner of the facility.

By integrating with the LuxVet Group, the facility will receive support in the areas of administration and accounting, operations, procurement, human resources and recruitment, IT and marketing. The team will be included in the training and knowledge sharing program as well as benefits such as private medical care.

### **About the LuxVet Group**

The Group has been consolidating and developing the Polish veterinary sector through a flexible partnership business model based on respect for the past achievements of the entities being integrated. By working with doctors and owners of leading animal health institutions and building its first hospital for small animals in Poland, the LuxVet Group develops top quality veterinarian services and raises the standards of work in the veterinary sector across Poland.

The Group has secured capital support from three investment funds: Oaktree Capital Management as the majority shareholder (which is also a shareholder in UNAVETS Group, a similar veterinary platform in the Iberian Peninsula), Cornerstone Investment Management and INVL Baltic Sea Growth Fund.
