

Sfora Veterinary Clinic partners with the LuxVet Group

LuxVet continues to expand at a rapid pace. 24-hour Sfora Veterinary Clinic has just joined the Group. This is the sixth LuxVet facility in Warsaw.

The 24-hour multidisciplinary Sfora Veterinary Clinic is located in the Wawer district of Warsaw, at ul. Trakt Lubelski 391. Its founder, veterinarian Monika Tyszkiewicz leads the team of 21 veterinary doctors, 24

technicians, and administrative staff.

Sfora offers a full range of services in internal medicine, surgery, neurosurgery and orthopedics, anesthesiology, cardiology, dermatology, dentistry, oncology and hematology, neurology, ophthalmology, endoscopy, laparoscopy, infectious diseases, dentistry and reproduction, and zoopsychology, among others. The facility also offers on-site laboratory and imaging testing (including CT scans, X-rays and ultrasounds) as well as advice from a behaviorist and nutritionist.

The clinic has a modern and stylish interior with a total area of more than 500 square meters.

"Since the inception of Sfora, we have focused on an individualized and holistic approach to each and every patient. To achieve this, we make sure that the entire team is constantly developing their skills and is staying abreast of new market developments in diagnosis and treatment. This will be easier after we join the Group and are able to exchange knowledge on a national and international level. At the same time, we will still be able to operate according to our own principles and procedures," says Dr. Monika Tyszkiewicz, founder of Sfora.

The Sfora team will have access to free training offered as part of the LuxVet training platform, and to an employee benefit package (private medical care, sports card). The LuxVet Group will support the facility in accounting, administration activities, procurement, IT support, and marketing.

About the LuxVet Group

The Group has been consolidating and developing the veterinary sector in Central and Eastern Europe through a flexible partnership business model based on respect for the past achievements of the entities being integrated. By working with doctors and owners of leading animal health institutions and building its first hospital for small animals in Poland, the LuxVet Group develops top quality veterinarian services and raises the standards of work in the veterinary sector.

The Group has secured capital support from three investment funds: funds managed by Oaktree Capital Management L.P. as (the majority shareholder, which is also a shareholder in UNAVETS Group, a veterinary platform similar to LuxVet and a market leader in the Iberian Peninsula), Cornerstone Investment Management and INVL Baltic Sea Growth Fund.
