Two Węgrzyn facilities join LuxVet Group

The LuxVet Group is strengthening its position in the Lubuskie Voivodship. The Group has recently welcomed two new facilities: Węgrzyn Weterynaria Specialized Veterinary Outpatient Clinic and Węgrzyn Weterynaria Veterinary Office.

The Węgrzyn Outpatient Clinic is located in Strzelce Krajeńskie at Aleja Wolności 43, while the Office is in Dobiegniew at ul. Gdańska 6/7. Both facilities were established by veterinarian Marcin Węgrzyn, who continued the work of his father, Eugeniusz Węgrzyn, who started a veterinary practice in the area back in 1982. The team consists of 8 veterinarians, 5 technicians and 3 administrative staff.

Patients are offered both primary and specialist medical care. The outpatient clinic specializes in surgery, orthopedics, oncology, dermatology, oncosurgery, endoscopy and zoophysiotherapy. The Węgrzyn Outpatient Clinic also offers its patients imaging diagnostics (ultrasound, x-ray) and additional examinations in its own laboratory. The facility has a fully equipped two-bed operating room with inhalation anesthesia equipment, respirators and a CO2 laser. During inpatient treatment, patients can stay in 3 separate hospitals: for cats, for dogs or for patients with infectious diseases. The clinic building is modern and spacious, with a large social area and a convenient parking lot.

“We are an ambitious team of people, who want to improve for the benefit of their patients. Within the Group, we have a sense of stability, security and excellent opportunities for growth. Moreover, we are becoming part of the LuxVet community that shares knowledge and best practices,” said Marcin Węgrzyn, veterinarian and founder of the clinic.

The integration into the LuxVet Group will provide the facilities with support in the areas of administration, finance and accounting, IT, procurement and marketing. Employees will benefit from training on the LuxVet platform and the employee benefits package.

About the LuxVet Group

The Group has been consolidating and developing the veterinary sector in Central and Eastern Europe through a flexible partnership business model based on respect for the past achievements of the entities being integrated. By working with doctors and owners of leading animal health institutions and building its first hospital for small animals in Poland, the LuxVet Group develops top quality veterinarian services and raises the standards of work in the veterinary sector.

The Group has secured capital support from three investment funds: funds managed by Oaktree Capital Management L.P. as (the majority shareholder, which is also a shareholder in UNAVETS Group, a veterinary platform similar to LuxVet and a market leader in the Iberian Peninsula), Cornerstone Investment Management and INVL Baltic Sea Growth Fund.
