

## **Another Romanian veterinary clinic joins the LuxVet Group**

**LuxVet grows dynamically in Romania. Under a newly signed agreement, the Group has added the 24-hour RegalVet veterinary clinic in Bucharest to its portfolio.**

RegalVet Veterinary Clinic is a modern facility that has gained the trust of Bucharest residents by offering comprehensive veterinary care. Located in the shopping center at Bulevardul Metalurgiei 12-18, the clinic specializes in the emergency medicine and surgery. The facility has its own ambulance, which allows for quick and safe transport of patients in case of emergencies.

RegalVet is a place of great potential, built by a young and dynamic medical team. The facility employs 10 qualified professionals, including veterinarians, technicians and administrative staff. Additionally, the clinic is currently undergoing expansion and will soon be equipped with a new X-ray machine, which will further improve the diagnostic process to ensure better care for its patients.

The clinic offers 24-hour veterinary care, ensuring that pets and their carers can always count on help, regardless of the time of day or night. The facility is located conveniently in the city center, close to major transport routes, which makes it easily accessible to all residents of Bucharest. Because of its location, RegalVet offers convenience to its customers, striving to make pet care as easy and accessible as possible.

*"The decision to join LuxVet was a natural choice for us. As a team that has always made efforts to provide the highest quality of care, we are certain that being part of the Group will allow us to raise the standards of our services to an even higher level. With access to the latest technology, training and*

*support from the best specialists in the industry, we will be able to look after the health of our patients even more effectively and provide them with the best possible care. We are proud that RegalVet is joining such a professional veterinary community." says veterinarian Nastase Georgiana, co-founder of RegalVet Veterinary Clinic.*

*"For us, RegalVet is not only another fantastic team, with whom we share the belief in the development of veterinary medicine in Romania, but also a great opportunity to support the development of a relatively young, but already well organized company. We are currently doubling the clinic's space and waiting for the equipment that will open up new possibilities for staff and patients. The founders and their team have shown that it is possible to grow from a small clinic in the direction of comprehensive and quality veterinary medicine, and we are joining them on their journey by sharing this vision." says Piotr Zajęczkowski, CEO of LuxVet Group.*

Like all the clinics joining the LuxVet Group, RegalVet will keep its existing name and logo and the Group will not interfere with the medical procedures used in the facilities.

### **About the LuxVet Group**

The Group has been consolidating and developing the veterinary sector in Central and Eastern Europe through a flexible partnership business model based on respect for the past achievements of the entities being integrated. By working with doctors and owners of leading animal health institutions and building its first clinic for small animals in Poland, the LuxVet Group develops top quality veterinarian services and raises the standards of work in the veterinary sector.

The Group has secured capital support from three investment funds: funds managed by Oaktree Capital Management L.P. as (the majority shareholder, which is also a shareholder in UNAVETS Group, a veterinary platform similar to LuxVet and a market leader in the Iberian Peninsula), Cornerstone Investment Management and INVL Baltic Sea Growth Fund.
