

## **Jamniczek Veterinary Clinic becomes the first one in the Łódzkie Voivodship to join the LuxVet Group**

The LuxVet Group continues to strengthen its leading position in the veterinary sector. Jamniczek Veterinary Clinic is joining the Group, marking its first presence in the Łódzkie Voivodship. This furthers the Group's strategy of raising the standard of veterinary care throughout Poland and supporting the continued development of its affiliated facilities.

The clinic is located at ul. Marii Curie-Skłodowskiej 4 in Piotrków Trybunalski. This place brings together specialized professionals and state-of-the-art equipment to ensure the highest level of care for animals.

Founded and led by veterinarians Łukasz Masłowski and Łukasz Gliszczyński, Jamniczek is known for combining medical excellence with a personalized approach to every patient. Their vision has always been not only to provide effective treatment, but also to build trust with pet owners by offering comprehensive care. The clinic's team consists of four veterinarians, three technicians, and administrative staff. Thanks to strong teamwork, the entire staff successfully carries out the clinic's mission, ensuring high medical standards and the efficient organization of treatment and customer service processes.

Jamniczek is a place where precise diagnostics and comprehensive patient care are a priority. The clinic specializes in internal medicine, clinical pathology, oncology, orthopedics, soft tissue surgery, cardiology, ophthalmology, and dentistry. It offers a wide range of on-site diagnostic tests, including advanced orthopedic procedures such as TPLO (Tibial Plateau Leveling Osteotomy) and specialized dental radiography. The clinic is equipped with modern tools to deliver high-quality imaging, surgical care, and treatment of complex conditions requiring specialist approach.

*"We believe that joining the LuxVet Group is a natural step in the continued growth of our clinic. This partnership will allow us to focus on what matters most — delivering the highest quality care to our patients — while receiving support in areas such as management, logistics, and access to modern tools,"* said the founders of the Jamniczek Clinic.

As part of the LuxVet Group, the clinic will benefit from support in administration, operations, IT, and marketing. The team will also gain access to a wide range of training and professional development programs designed to further enhance their qualifications.

### **About the LuxVet Group**

The Group has been consolidating and developing the veterinary sector in Central and Eastern Europe through a flexible partnership business model based on respect for the past achievements of the entities being integrated. By working with doctors and owners of leading animal health institutions and building its first hospital for small animals in Poland, the LuxVet Group develops top quality veterinarian services and raises the standards of work in the veterinary sector.

The Group has secured capital support from investment funds: Cheyne Strategic Value Credit ("Cheyne SVC"), part of Cheyne Capital, a global leader in alternative investments; Petcare Growth Fund, managed by 1 Asset Management, an investor in the largest network of veterinary clinics in the Baltic countries, funds managed by Oaktree Capital Management L.P. as (the majority shareholder, which is also a shareholder in UNAVETS Group, a veterinary platform similar to LuxVet and a market leader in the Iberian Peninsula), Cornerstone Investment Management and INVL Baltic Sea Growth Fund.
