

Three facilities in the Kujawsko-Pomorskie voivodship join the LuxVet Group

The LuxVet Group is strengthening its position in Poland's Kujawy region. Three veterinary clinics, founded and operated by the renowned veterinarian Mariusz Mikołajczak, have joined the Group following the signing of a contract: Veterinary Clinic na Skarpie, Veterinary Office Wrzosey and Veterinary Office Lubicz. The LuxVet Group now has five facilities in and around Toruń, giving it a strong position in the region.

The new facilities operate in three locations:

- Veterinary Clinic na Skarpie, ul. Kardynała Stefana Wyszyńskiego 5b, Toruń,
- Veterinary Office Wrzosey, ul. Migdałowa 14, Toruń,
- Veterinary Office Lubicz, ul. Lipnowska 42, Lubicz.

With a team of 12 specialists, including 6 veterinarians and 5 technicians, they have been providing comprehensive services at the highest level for many years now. The facilities offer a full range of veterinary services, from internal medicine, surgery and orthopedics to neurology, gastrology, cardiology, dermatology, ophthalmology, oncology, rehabilitation and imaging diagnostics including ultrasound and x-ray.

"We have decided to join the LuxVet Group because we believe in the growth and opportunities that cooperation within such a fast growing organization offers. Not only do we want to further develop our business, but we also want to ensure the best possible support for our team. It is the people, with their commitment, passion and knowledge, who are the most important pillar of our clinic. Together with the LuxVet Group, we can create a community where both patients and employees get what is best for them," said Mariusz Mikołajczak, founder of the facility.

With this partnership, the LuxVet Group will not only bring state-of-the-art solutions to the Toruń market, but also offer additional development opportunities for the veterinary teams. The facilities will receive support in the areas of administration and accounting, IT, procurement and marketing, and the team will obtain access to numerous benefits such as the training system or private medical care. With five facilities in Toruń and the surrounding area, the LuxVet Group is setting new standards in comprehensive veterinary care and becoming an irreplaceable partner for both pet parents and industry professionals. Each facility contributes its unique character and together they form a network that ensures the highest quality and availability of services.

About the LuxVet Group

The Group has been consolidating and developing the veterinary sector in Central and Eastern Europe through a flexible partnership business model based on respect for the past achievements of the entities being integrated. By working with doctors and owners of leading animal health institutions and building its first hospital for small animals in Poland, the LuxVet Group develops top quality veterinarian services and raises the standards of work in the veterinary sector.

The Group has secured capital support from investment funds: Cheyne Strategic Value Credit ("Cheyne SVC"), part of Cheyne Capital, a global leader in alternative investments; Petcare Growth Fund, managed by 1 Asset Management, an investor in the largest network of veterinary clinics in the Baltic countries, funds managed by Oaktree Capital Management L.P. as (the majority shareholder, which is also a shareholder in UNAVETS Group, a veterinary platform similar to LuxVet and a market leader in the Iberian Peninsula), Cornerstone Investment Management and INVL Baltic Sea Growth Fund.
