

US-WET Veterinary Clinic joins the LuxVet Group

LuxVet Group has welcomed another veterinary facility to its network — US-WET Veterinary Clinic in Szówsko. This is the Group's third clinic in the Podkarpackie Voivodship, representing another step in the expansion of its network and the raising the standards of veterinary care across the region.

Located at ul. Książąt Czartoryskich 33, US-WET was founded by veterinarian Grzegorz Gudź in 1999 and has been delivering comprehensive care for both companion and farm animals for over 25 years. Over time, the clinic has built a strong reputation and earned the trust of a wide and loyal client base.

The US-WET team consists of 12 qualified professionals, including veterinarians and veterinary technicians, who are committed to continuous development through training, courses, and international congresses. The clinic specializes in internal medicine and surgery, while also offering a broad spectrum of services, such as nephrology, neurology, dentistry, cardiology, obstetrics, dermatology, ophthalmology, orthopedics, and dietetics.

The facility features state-of-the-art infrastructure, including a waiting area, consultation room, outpatient clinic, inpatient hospital, procedure and surgery room, laboratory, X-ray and ultrasound suites, and a pet store. US-WET is equipped with advanced diagnostic tools, including X-ray, ultrasound, and ECG machines, as well as a fully equipped operating unit.

"From the very beginning, our mission has been to deliver the highest standard of care, combining modern technology with a personalized approach to every case. We continue to invest in our team and diagnostic capabilities to meet the expectations of both our patients and their caregivers," says Veterinarian Grzegorz Gudź, founder of the US-WET Clinic.

By joining LuxVet Group, US-WET will benefit from further improvement of its operations and administrative activities, gaining access to tools for streamlining management, optimizing

procurement, and supporting team development. This will allow the clinic's staff to concentrate on what matters most: delivering exceptional veterinary care.

About the LuxVet Group

The Group has been consolidating and developing the veterinary sector in Central and Eastern Europe through a flexible partnership business model based on respect for the past achievements of the entities being integrated. By working with doctors and owners of leading animal health institutions and building its first hospital for small animals in Poland, the LuxVet Group develops top quality veterinarian services and raises the standards of work in the veterinary sector.

The Group has secured capital support from investment funds: Cheyne Strategic Value Credit ("Cheyne SVC"), part of Cheyne Capital, a global leader in alternative investments; Petcare Growth Fund, managed by 1 Asset Management, an investor in the largest network of veterinary clinics in the Baltic countries, funds managed by Oaktree Capital Management L.P. as (the majority shareholder, which is also a shareholder in UNAVETS Group, a veterinary platform similar to LuxVet and a market leader in the Iberian Peninsula), Cornerstone Investment Management and INVL Baltic Sea Growth Fund.
