

Żurawiniec - the first LuxVet Group clinic in the Greater Poland region

The LuxVet Group launches its operations in the Greater Poland region by adding the Żurawiniec Veterinary Clinic to its network. This is the Group's first facility in the region, which marks a step towards expanding its operations in the area.

Located in Poznań at ul. Jasna Rola 36/29, in addition to standard treatment and prevention of internal diseases the facility specializes in orthopedics, oncology, nephrology and soft surgery for pets.

The team headed by veterinarian Paweł Piechota consists of 8 doctors, including a specialized oncologist and nephrologist, 4 technicians and 3 administrative staff. Patients have access to 4 doctors' offices and an operating room. The Żurawiniec Veterinary Clinic also offers comprehensive health care in a modern hospital. With a highly qualified team of veterinarians and the latest medical equipment, it provides patients with professional assistance in emergencies, surgeries or long-term treatment.

"Every animal deserves the best care possible, and our job is not just to treat them, but to understand their needs and help them return to full health. Our priority is the health and comfort of our patients – for us a patient is not merely a diagnosis, but above all a being, so we give each patient individual care and attention," says doctor Paweł Piechota, founder of the clinic.

Integration with the LuxVet Group will support the facility in administrative activities, accounting, procurement, IT support, and marketing. The team will also obtain access to an employee benefit package, which include medical care or a sports card, and free training available on the LuxVet training platform.

About the LuxVet Group

The Group has been consolidating and developing the veterinary sector in Central and Eastern Europe through a flexible partnership business model based on respect for the past achievements of the entities being integrated. By working with doctors and owners of leading animal health institutions and building its first hospital for small animals in Poland, the LuxVet Group develops top quality veterinarian services and raises the standards of work in the veterinary sector.

The Group has secured capital support from investment funds: Cheyne Strategic Value Credit ("Cheyne SVC"), part of Cheyne Capital, a global leader in alternative investments; Petcare Growth Fund, managed by 1 Asset Management, an investor in the largest network of veterinary clinics in the Baltic countries, funds managed by Oaktree Capital Management L.P. as (the majority shareholder, which is also a shareholder in UNAVETS Group, a veterinary platform similar to LuxVet and a market leader in the Iberian Peninsula), Cornerstone Investment Management and INVL Baltic Sea Growth Fund.
